

# FXstreet Feeder - Data Feed for MetaTrader 4

Permalink: <https://support.metaquotes.net/en/articles/351>

30 August 2012

---

Regular real-time news updates are an important factor for brokerage companies' clients. MetaTrader 4 has plenty of data feeds including [IBTimes](#), [Trading Central](#), [IQFeed](#), etc. to provide traders with the latest financial news. This article describes one of the feeds allowing to broadcast the news from [FXstreet.com](#) financial web portal.

FXstreet.com is a well-known web portal dedicated to Forex market. It was brought to life in January 2000. As their distinctive trademark, the portal has always been proud of their unyielding commitment to provide objective and unbiased information, to enable their users to take better and more confident decisions. On the portal, the real-time quotes, news, newsletters and interactive chats with experts from all over the world are among the most well-received content. Furthermore, FXstreet.com is very proud of its sections on Fundamental and Technical analysis, as with these sections FXstreet.com has managed to gain the collaboration of the entire Forex industry, from individual professionals and small companies, right up to Forex Brokers and Investment Banks.

FXstreet Feeder for MetaTrader 4 provides your clients with financial news, as well as the data on technical analysis in eight languages: English, Russian, Arabic, Chinese, German, Indonesian, Spanish and Turkish.

FXstreet Feeder is free and included in the platform standard delivery. Contact FXstreet.com to subscribe to the news. Contact details can be found on the web portal at "[Contact Us](#)" section.

## FXstreet Feeder Setup

FXstreet Feeder is a separate "FXstreetFeeder.feed" file. The data feed is included in the MetaTrader 4 platform delivery set and downloaded/updated via the centralized LiveUpdate system.

Add the new FXstreet Feeder data feed configuration via the corresponding section of MetaTrader 4 Administrator:

**Data Feed**

Data Feed provides receiving quotes and news.  
Choose an appropriate source, data type, then enter authorization data.

☒ Enable

Name:  News

File:  Description

Server:  Journal

Login:  Password:

Keywords:  Language:

**Timeouts**

Idle timeout:  seconds, reconnect after  seconds

Sleep for:  seconds after  attempts

Specify the following parameters:

- **File** — FXstreetFeeder.feed;
- **Server** — FXstreet server address. subscriptions.fxstreet.com is set by default;
- **Login** — login (or Client Key) for connection to FXstreet server. Submitted by FXstreet when concluding an agreement for providing news feed.

Create FXstreetFeeder.ini file and place it to "datafeed" subdirectory of the trading server directory to receive news only in specified languages. The file should contain the required languages. Example of the list of languages:

```
language=english
language=russian
language=spanish
```

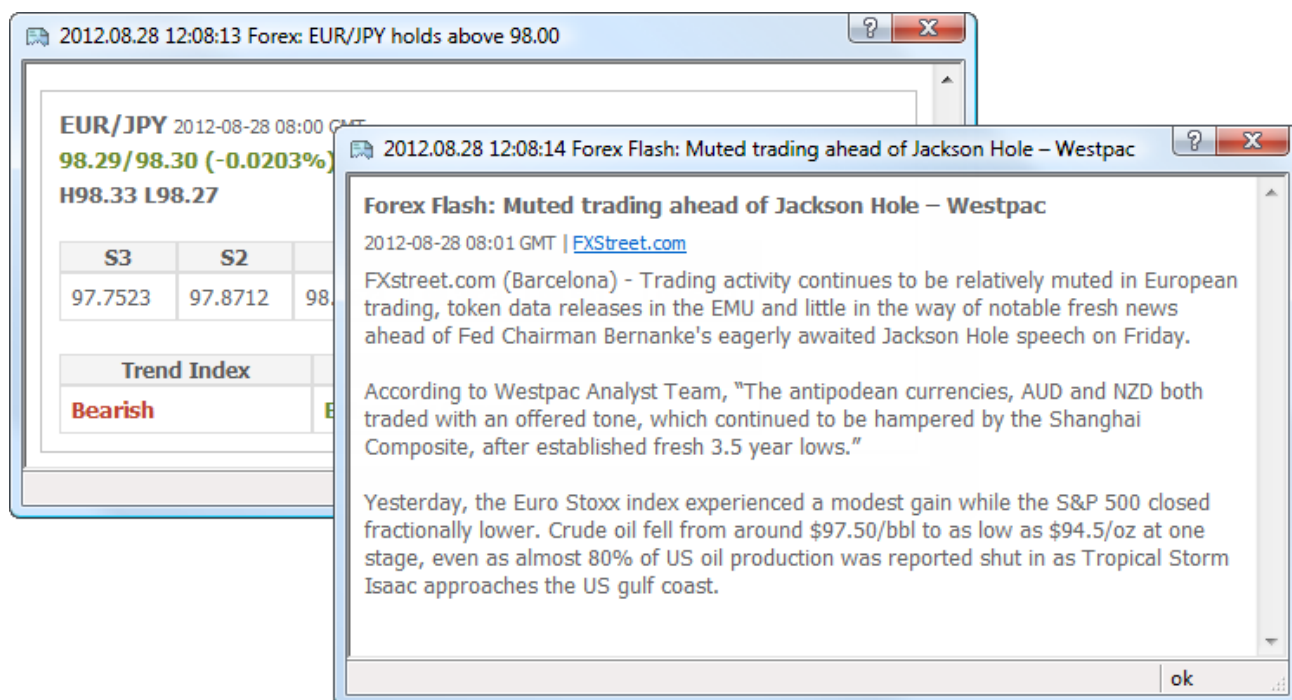

In this example, MetaTrader 4 Server will receive news in English, Russian and Spanish. The list of all available languages is shown below:

- **english** — for news in English;
- **russian** — for news in Russian;
- **arabic** — for news in Arabic;
- **chinese** — for news in Chinese;
- **german** — for news in German;
- **indonesian** — for news in Indonesian;
- **spanish** — for news in Spanish;
- **turkish** — for news in Turkish.

By default, the data feed broadcasts news in all available languages if no parameter is specified. After editing FXstreetFeeder.ini file, data feeds should be reset via "Services — Reset Datafeeds" or the context menu.

For the headlines in Chinese and Arabic to be displayed correctly in the terminal, the appropriate language should be selected in the operating systems for programs that do not support Unicode.

The client terminals will start receiving news right after enabling the data feed. The data feed logs can be requested to check its operation. Below is an example of news in English:

The news and technical analysis data are displayed here. All news articles are conveniently divided into categories - Technical news, Macro, Indicators, etc.

## Conclusion

[FXstreet.com](http://FXstreet.com) web portal is a well-known news provider. Contact the portal and enter a subscription to provide your clients with the latest news in eight languages. Contact information is available on the official website ("[Contact Us](#)" section).

Setting up the news from FXstreet Feeder in MetaTrader 4 will not take more than 5 minutes.
